The Business Suite

Connectivity & Control

The aircraft's double-club seating features spacious, comfortable leather seats that can track forward and aft, swivel, and recline, ensuring maximum comfort for passengers. To enhance productivity, the cabin also includes four executive tables that offer ample workspace for each passenger.

Additionally, the cabin is equipped with standard domestic internet, providing passengers with reliable connectivity throughout the flight. With the wireless cabin management system and domestic internet available on board, passengers can experience unparalleled connectivity and productivity in the sky. These advanced features enable passengers to remain connected, entertained, and productive while enjoying the luxurious comfort of the double-club seating.

The Family Suite

The Cessna Citation Sovereign C680 is the perfect private jet for families seeking luxurious travel experiences. Its capacious cabin can accommodate 8 passengers and 1 host, offering a luxurious and indulgent travel experience. The Sovereign's seamless operation ensures that families can explore the world in style and comfort, relishing the jet's luxurious amenities and plush interiors.

The jet's fuel-efficient engines allow it to fly longer distances without the need for refueling, reducing the number of stops and increasing travel time efficiency. With its impressive speed and long-range capabilities, families can embark on exotic vacations and long-haul trips with ease and comfort, all while enjoying the breathtaking views from the jet's large windows.

Overall, the Cessna Citation Sovereign is the ultimate private jet for families seeking luxury and convenience in their travels.

The Air Ambulance

Saving Lives, One Flight at a Time

This high-performance, long-distance ambulance jet is designed to perform critical, life-saving missions with exceptional efficiency and ease. Thanks to its remarkable range, the Citation 680 Sovereign can fly across continents without the need for stopovers - a critical factor in ensuring the patient's wellbeing.

The spacious cabin configuration is thoughtfully designed to provide a comfortable and spacious environment that accommodates multiple patients, medical crew, and accompanying personnel, promoting an optimal working environment for medical professionals.

**Where safety, speed,
and expertise meet.**

The aircraft's capacity for intensive medical equipment is unparalleled, making it possible to safely transport critically ill patients to international destinations.

From portable blood gas analyzers to external cardiac pacemakers, the Citation 680 Sovereign is equipped with the latest medical technologies to provide life-saving care in the air. Additionally, the inclusion of a Dräger 5400 transport incubator allows for the safe and efficient transport of infants and newborns across continents.

The Citation 680 Sovereign is the ultimate choice for emergency medical transport, providing unparalleled comfort, safety, and efficiency.

Bombardier Learjet 60XR

T7 VGG

The Learjet 60XR is the perfect mid-sized private jet for discerning travelers who demand an aircraft that is both efficient and reliable. Designed for a niche market of flyers who value speed, high-altitude cruising, and economic operation, the Learjet 60XR is a certified leader in the aviation industry's highest safety standards, guaranteeing an exceptionally smooth ride. With its unrivaled combination of performance and luxury, the Learjet 60XR is the epitome of luxurious travel, exceeding the expectations of even the most selective passengers.

With a 6-passenger capacity, this jet is equipped to fly farther, faster, and with more room than other private jets in its class. The Learjet 60XR's powerful engines allow for a faster climb rate and an impressive 460-knot top speed. Despite its impressive advantages, the Learjet 60XR remains a leader in fuel efficiency among mid-size jets, making it the ultimate choice for cost-effective and luxurious travel.

Learjet 60XR | T7 - VGG

	<p>6 executive multi-position recline seats</p>
	<p>Cockpit closeout privacy curtain</p>
	<p>Large concealable side table*</p>
	<p>Electrical connectors, reading lights and side ledges with recessed cup holders</p>
	<p>SAT-phone availability</p>
	<p>Entertainment: Airshow 410 w/ DVD player & bulkhead-mounted cabin displays</p>
	<p>Galley with work surface, drainable ice drawer, hot water outlet and available microwave</p>
	<p>Lavatory benefiting from natural light, a mirror and vanity with available sink and faucet</p>
	<p>Generous in-cabin storage space</p>
	<p>External baggage compartment</p>

The Business Suite

Step into a world of productivity and comfort with the aircraft cabin of the Learjet 60XR. Carefully crafted to offer a peaceful environment for conversation, meetings, and business productivity, the cabin features a six-seat configuration that includes ergonomic swivel and multi-position recline capability.

Passengers can stretch out and relax with generous legroom, while the large concealable side table provides ample space for working, dining, or even hosting a boardroom meeting. With reduced cabin noise and increased privacy, the Learjet 60XR offers the most private and serene cabin experience in its class.

The Family Suite

The Learjet offers a private, quiet, and spacious cabin that provides unmatched space and the most legroom in its class, allowing passengers to maximize their time for rest or quality time for group talks and fun. The cabin features bulkhead-mounted displays, a DVD player, and seats that swivel, track, and recline, with every aspect of the cabin carefully designed for an unrivaled private jet experience.

The Air Ambulance

For operating a dedicated air ambulance flight, the Learjet 60XR's spacious cabin setting can be quickly converted from VIP to medical setup, to provide a proven reliable aircraft for the mission. Learjet 60XR can respond to remote areas and provide the speed that is necessary for critical care patients. Its high-wing design allows for a stable platform to provide in-flight critical care. From basic non-critical transport to neonatal care, the Learjet 60XR provides the right response.

This jet comes fully supplied with state-of-the-art equipment and medicines. A team of qualified experts travels with the patient to provide emergency care during the flight.

While ASM international team of aviation specialists will assist with worldwide air ambulance charter consultations, ensuring the quickest response possible.

Bombardier Learjet 60XR

9H GOA

The Learjet 60XR was meticulously crafted for a selective market of sophisticated flyers who demand the ultimate in speed, high-altitude cruising, economic operation, and reliability. With its 7-passenger capacity, this mid-sized jet proudly boasts the aviation industry's highest safety standards, providing a smooth and secure ride for passengers with ample room to relax and unwind.

With its powerful engines, the Learjet 60XR offers a faster climb rate and an impressive top speed of 460 knots, setting the standard for class-leading performance. However, what sets the Learjet 60XR apart is its superior fuel efficiency compared to other mid-size jets. With this advantage, passengers can enjoy more flying time while paying less for fuel, making the Learjet 60XR the ultimate choice for those seeking both speed and cost-effectiveness.
